STATEMENT OF WORK Terrace (600) Missouri

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

- 1. Survey notes which show that a thorough and detailed site survey was completed.
 - a. Survey notes shall be in accordance with NRCS Technical Release 62, Engineering Field Handbook, Chapter 1 and/or standard industry practice.
 - b. If survey equipment with automatic / electronic data collection devices is used, a print out of the data and/or a reference to the location where the electronic file is stored shall be included in the file.
 - c. In the case of storage terraces, elevations shall be referenced to a bench mark. A temporary bench mark with an assumed elevation is acceptable.
- 2. Design documents that demonstrate criteria in practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. Compliance with NRCS national and state utility safety policy (NEM part 503-Safety, Section 503.00 through 503.22)
 - d. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. Hydrology/Hydraulics
 - Drainage Area
 - · Rainfall and Runoff Volumes
 - · Design discharges and velocities
 - ii. Interval/Spacing
 - Soil series, land slope, cropping management and farm equipment widths
 - Profiles, cross sections and horizontal alignment of each terrace
 - iii. Outlet Capacity and Stability
 - Profiles and horizontal alignment of each outlet
 - iv. Erosion Control
- 3. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
- 4. Operation and maintenance plan
- 5. Certification that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03(b)(2)).
- 6. Design modifications during installation as required

INSTALLATION

Deliverables

- 1. Pre-installation conference with client and contractor
- 2. Verification that client has obtained required permits
- 3. Staking and layout according to plans and specifications including applicable layout notes
- 4. Installation inspection
 - a. Actual materials used
 - b. Inspection records
- 5. Facilitate and implement required design modifications with client and original designer
- 6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
- 7. Certification that the installation process and materials meets design and permit requirements (NEM Subpart A, 505.03(c) (1)).

STATEMENT OF WORK Terrace (600) Missouri

CHECK OUT

Deliverables

- 1. As-built documentation
 - a. Extent of practice units applied
 - Profile of channel and ridge and cross section for each terrace
 - Terrace spacing
 - Outlet type and adequacy
 - Vegetation establishment if required (See Critical Area Planting 342 Statement of Work)
 - b. Drawings
 - c. Final quantities
- 2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits
- 3. Progress reporting
